"A Manual for the use of the Twenty-fourth General Assembly of the State of Illinois, papeared and compiles pursuant to a resolution of the House of Representatives, adopted Jan. 2d, 1257. has been owinted in a duodecene volume of 66 pages, and Isid on the table of the members. The typographeal portion of the work and the paper on which it is printed, are a diagrace to the State. Saving a few errors the compilation has been very well done. The volume contains handsomely-engraved diagrams of the Sente and House of Representatives, with the names of the officers, manuters and reporters, indicated in their proper easts. The diagrams are the work of the Western Engraving Company, of Chicago, and are in the best style of the act. The contents of the Manual are the Constitution of the United States; Constitution of the Chinese in the United States; Constitution of the Chinese in the United States; Constitution of the Chinese in the State of Illinois; including the Executive Department, officers and House page countries of the Sonate and House is the State of Illinois; including the Executive Department, including the Executive Department, including the Executive Department, officers and House is the State of Illinois; including the Executive Department, including the Executive Department, including the Executive Department, including the Executive Department, officers and House reporters; Senators and House is the State of The classified worth and the second of the control FROM MISSOURI.

Carno, Thursday, Feb. 2.—New Orleans date? of the 25th show no change in the markets.

An extra the control of the NOTICE per our attention having been a secretion and statements lately made in humble but affectionate tribute to use manufacture the departed.

Long beine it had ever occurred to me to meet Senator Finite personally, I had by itsering those who know kin in 6471 times, relate so many of those ittile indicants and frommesones which go to snake up the sum of a great file, become almost familiar with his character. It was one of the picture of could mass for what it was worth. If it implested none of the accused, then none would be hart by its consunted that the document should be read, but objected most decidedly to its reception as ordence.

Mr. Herve also objected to its being introduced as testiment, as it was not fir that the client, dudge Morris, should be made responsible for sontiments enunciated in a document bend never seen. It had not been shown even that the documents was as official one or had been written or originated by any member of the organization. Then again, the witness had asserted that he had been a detective. Now it had not been a detective to get up evidence for the conviction of suspected parties. How easy then, it would be for him to produce as testimony a printed paper which in reality the numbers of he lodge had never seen. CHENK'S PULMONIC
